COUNCIL OF BIGSTONE M.D. ORGANIZES FOR THE YEAR

J. L. G. Rattray Elected Reeve and Coun. Arnold Deputy Reeve. Three Councillors take Oaths of Office. Delegate Appointed to Hall Board Meeting. Council to meet Monthly at Lone Ridge Hall.

The regular meeting of the council of the Municipal District of Bigstone, No. 453, was held at the Lone Ridge Hall, on Friday, March 6th, with Returning Officer Fred Stone in the chair.

The newly elected councillors, Rattray, Olson and Barleigh, then took oath of office.

J. L. G. Rattray was elected reeve for the ensuing year. H. Arnold was elected deputy reeve for the next six months.

Minutes of the last meeting were read and adopted on motion of Coun. Olson.

It was moved by Coun. Olson that nothing further be done at present with the condition of the winter roads.

It was moved by Coun. Barleigh that the matter of a horse belonging to A. Johnson, and impounded in pound kept by Leslie Marr, be left at present.

H. Arnold asked that council on deavor to get permission to remove certain beaver dams on sections 17 and 18 in 47-25, west of the 4th. The secretary was instructed to write for permission to have said beaver dams removed.

J. H. Walker was appointed auditor for the year at a salary of \$75.00.

Dr. McColgan was appointed health officer for the year.

Meetings of council will be held on the last Wednesday of each month, at Lone Ridge Hall, at 11 a.m.

It was moved by Coun. Barleigh that Councillors be paid at the rate of \$4.00 per day, and the reeve \$5.00 per day for each meeting attended, and 10 cents per mile for each mile travelled in attending meetings.

It was moved by Reeve Rattray that the motion be amended by deleting \$5.00 a day for the reeve and substituting \$4.00 a day. The amendment carried.

It was moved by Coun. Olson that Councillors be paid \$4.00 per day for not more than 15 days for the inspection or laying out work performed or to be performed for the benefit of the municipality and 10 cents per mile for each mile necessarily travelled in connection with same, with a maximum of 500 miles travelled.

It was moved by Coun. Barleigh that the above motion be amended by leaving the number of miles travelled open. The motion carried, the amendment being defeated.

A letter was read from the Hall Insurance board in connection with the annual meeting. It was moved by Coun. Westendorf that H. Arnold be appointed as delegate to meeting.

It was moved by Coun. Olson that J. H. Barleigh be appointed delegate. H. Arnold was appointed as delegate.

It was moved by Coun. Olson that the Reeve and Secretary Treasurer be authorized to sign all notes and cheques and do the banking business of the Municipality in general, in the name of the Municipality. The secretary treasurer to have authority to sign cheques on school trust account, cheques in connection with pound advertisements in Alberta Gazette, and cheques in connection with any necessary business done with Land Titles Office re Tax recovery business, alone.

It was moved by Coun. Arnold that the Municipality purchase 350 tons of

"Gophericide" from the Cooke Drug Co. Millet.

It was moved by Coun. Westendorf that the Municipality purchase 675 tons of "Gophericide" from the Northern Drug Co. Wetaskiwin.

It was moved by Coun. Olson that the secretary treasurer be empowered to borrow in the name of the council any sums necessary to meet current expenditures of the Municipality as per resolution attached.

Meeting adjourned.

LOCAL DRUGGIST LOSES HEAVILY HAY LAKES FIRE

A few mornings ago a fire was discovered in the drug store conducted at Hay Lakes by the Cooke Drug Co. and when the alarm was given the blaze had become so much headway that nothing could be saved. The origin of the fire is a complete mystery. Everything was O.K. the evening before. The post office and the telephone exchange were also in the same building, being carried on by Mr. Cooke's assistants, and all the mail and telephone equipment were burned. To increase the heavy loss, when the safe fell over, the floor came open, and valuable papers, some money, jewelry, etc., were also destroyed. The loss is partially covered by insurance. Mr. Cooke, who is the manager of the Wetaskiwin branch, is receiving many expressions of sympathy from his many friends in his misfortune.

OPPOSED RAISING MILL RATE IN S.D.

A meeting of the Sacred Heart school board was held on March 6th, with all the members present.

On recommendation of the principal the purchase of various articles and books for the study of applied art was approved.

The secretary treasurer was instructed to apply to the city for a tax levy of \$250.00 for the current year.

The chairman and secretary were appointed a committee to approach the city council, with a demand for the removal of the lately acquired property from the assessment roll.

The chairman was given leave of absence until August 1. R. E. Schmitt was appointed chairman during the absence of Carl Schmitt.

Dr. A. S. McColgan was appointed health inspector for the school for the year 1925.

The following resolution was passed by the board: "That we, the chairman and trustees of the Sacred Heart S.D. No. 15, are opposed to the raising of the present mill rate on the rural lands contributory to the Wetaskiwin school districts.

The quality of the horses in this community will be improved by the action of Richard Bartholomew, who went to Olds a few days ago and purchased a very fine type of Belgian stallion.

In the records he is registered as Horatio 966, and he is a handsome animal, weighing 2200 pounds. He will be travelled throughout the district this summer.

PURCHASES BELGIAN HORSE

The quality of the horses in this community will be improved by the action of Richard Bartholomew, who went to Olds a few days ago and purchased a very fine type of Belgian stallion.

In the records he is registered as Horatio 966, and he is a handsome animal, weighing 2200 pounds. He will be travelled throughout the district this summer.

BRITISH LADS TO FARMS

Yermilion, March 18.—The Yermilion school of agriculture closed its winter term on Friday, and by today the sixty British boys who have been taking the course in farming there since last October will be scattered to different parts of the province, and by the end of the week will have their first real taste of farm work and conditions in Alberta.

POSTPONED HOCKEY GAME

The postponed hockey game, P.E.I. vs. The World, will be played at the rink on Thursday evening of this week. This will be one of the most interesting and amusing games of the season. If you want a good laugh, be sure and be there.

STEWART TELLS PLANS TO AID COAL INDUSTRY

Ottawa, March 17.—Hon. Charles Stewart, minister of the interior, stated in the house of commons late last night government plans for the development of the Canadian coal industry. Two lines of activity were proposed.

1. Continuance of the financial assistance provided last year for the transportation of Canadian coal.

2. Legislation to assist the manufacturing of coke.

Mr. Stewart said that as a result of the \$200,000 voted last year to assist in transporting coal, the market for Nova Scotia coal had been extended 100 miles further west. Owing to the strike in Alberta coal fields, it had not been possible to lend financial assistance in transporting Alberta coal east. But there was to be a trial shipment in the spring; and it is at \$6.00 a ton transportation charges could be obtained, plus \$3.50 per ton for mining and loading on cars, it would be possible to bring Alberta coal into Ontario, and to meet competition with American anthracite. Further, if Nova Scotia fuel could be turned into high grade coke at Quebec Mr. Stewart thought that a million tons a half ton could be had to take the place of the anthracite now brought in from the United States.

PUBLIC SCHOOLS DEMAND REDUCED

At the regular meeting of the public school board on Thursday evening last, the estimates for the year were considered and it was resolved to make a demand to the city council for the sum of \$27,500, which is a reduction from last year of \$1,500.

A letter was read from the wardens of unincorporated places, informing the board that the parish hall had not been left in as good a condition as when the lease had commenced. This was referred to the house committee for action.

The secretary of the Drumheller school district wrote inquiring as to the amount per capita it cost the Wetaskiwin board to conduct the school last year. The secretary was instructed to give the information.

A letter from the department of education re bond payments was filed.

Accounts to the amount of \$196.94 were passed for payment.

Meeting adjourned.

POOL OFFICIALS IN EDMONTON RE ELEVATOR PLANS

Edmonton, March 17.—H. W. Wood, chairman of the board of directors of the Alberta wheat pool, R. D. Purdy, the western manager, and Geo. McNeil, the western sales agent, are in Edmonton at the present time, and while no information was obtained at the offices of the wheat pool regarding the nature of their visit to the northern city, except that it was in connection with "matters affecting the pool," it is believed in some quarters that the object is to make arrangements with the government for the financing of the purchase of a string of country elevators.

It is known that the question of acquiring the complete control of a number of country elevators loomed largely in the discussion of the trustees of the Alberta pool when they met in Calgary last week. It would require something like \$2,000,000 to swing the scheme, so grain men have stated.

Alleged Murderer of James Calkins Taken

Medicine Hat, March 15.—Arrested last Friday on a charge of murdering James Calkins, C.P.R. brakeman, during an attempted robbery of a train at Sunday, John Kolesnikov, a Russian, 21 years old, was brought into this city by members of the Alberta provincial police on Saturday afternoon.

Police officers who have been working on the case and who were present at the arrest stated that the alleged murderer appeared to be of low mentality and that he was little perturbed by his arrest. He was charged with the crime before John Pollock, justice of the peace, at Medicine Hat, and remanded until March 21. The preliminary hearing will be continued as soon as the case can be prepared.

GOV'T MEMBERS KILL MOTION FOR ECONOMY

The government members in the legislature Monday afternoon defeated by a standing vote of 20 to 11, an amendment to the budget motion by J. C. Bowen, Liberal member for Edmonton, expressing much disappointment that the administration had failed to adopt a vigorous policy of retrenchment, and proposing that a reduction in the estimates of \$500,000 be considered.

The amendment was supported by the Liberal section of the house and by W. M. Davidson, Independent member for Calgary. The government opposed the proposal to the last man and were supported by the Labor section.

The inaction on the part of the government with respect to liquor profits, telephone rates and other matters of vital importance to the public were severely attacked by Mr. Marshall, who in his usual sarcastic manner, hurled volley after volley of criticism across to the government members.

In referring to the telephone rates Mr. Marshall declared that the government did not have the courage at the present time in view of the coming election to make any statement as to whether there would be an increase in rates.

"And no more has the premier the courage to tell the legislature what is to be done about the division of the liquor profits. He has to do just what the caucus tells him to do about it," declared the speaker.

The liquor traffic, at the present time was giving a splendid revenue but it was not the fault of the government that this revenue was pouring in. The government was a prohibitionist organization, but when the people asked for a liquor act they finally agreed to water and eventually framed up a program. The people voted on the 4-2-22, and demanded a liquor act. As a result the government made over \$1,000,000 last year from the operation of the act.

"The government could not resist the temptation to budget for more money from this source this year. It increased the amount up to \$1,000,000 but instead of doubling up the profits with the municipalities as the premier promised, it apparently is going to keep all of the profits itself," he asserted.

The minister of railways, in an address that was very complete and technical, showed that the government had been able to effect economies in the administration of the provincial railways, both with respect to operation and cost of construction.

Mr. Smith contended that the combined net operating deficits of the Alberta & Great Waterways and the Lacombe & Northwestern railways had been reduced from an average of \$1,173,731.10 per annum to \$2,029.72.

It was the contention of the minister of railways that not only had the present administration reduced costs but had been able to establish and maintain an efficient railway system. He offered some criticism in the system in which the railways had been handled by the past administration, contending that improvement had been made all along the line.

The imposition of a provincial income tax was urged by Mr. Love, who contended that this was the fairest method of raising revenue. The present system was not giving the best results inasmuch as the burden was unusually heavy on some, while others escaped. There were some men who had large incomes, but owned no property and spent most of their money in other countries. Such men would come under the provisions of the income tax and would be made to share the burden.

There were also the University men whose earning power was increased by their attendance at the University which was kept up by the province. These men who earned much larger salaries as a result of their training would be expected to contribute to a measure to the upkeep of the province.

The income tax was suggested by Mr. Love last year, but no action was taken.

Mr. Love took exception to the attitude of the Hon. Chas. Mitchell to the budget. It was his contention that the telephone deficit of \$140,000 should not be added to the general deficit. The telephone was a separate enterprise carried by the government and should be made to take care of its own deficit.

Mr. Mitchell stated that if there was a deficit at the end of the year it was a deficit and would have to be met whether it was added to the general deficit or not.

Mr. Tobin expressed regret that the budget did not balance. He had hoped that the government this year would have been able to make a better showing than they had, inasmuch as there has been an increase in revenue.

LIQUOR PROFITS ARE TO BE KEPT BY GOVERNMENT

The government has no intention of dividing the liquor profits with the municipalities of the province as promised last year, according to an announcement made in the legislature yesterday afternoon at the opening of the house by Premier Greenfield. This was the first public announcement as to the policy of the government with respect to the disposition of the liquor profits.

The reasons advanced for not giving the municipalities a share of the profits were:

First: That the province this year will be unable to balance its budget even with the liquor profits, which are estimated at \$1,600,000 for 1925.

Second: That the distribution of the profits were made, additional taxation would have to be imposed to make up the deficiency in provincial revenue.

Last year representatives of the municipalities were given to understand that they would receive a portion of the profits in 1925. No profits would be given in 1924 as the net was still in the experimental stage, but this year they could expect a reasonable share. Although no definite promise was made as to how much the municipalities might expect, it was understood that they should at least be given thirty-five per cent of the total revenue traced over to the province.

C.P.R. TO ERECT NEW COALING PLANT HERE

Montreal, March 18.—A number of improvements planned by the Canadian Pacific Railway in Alberta during the year 1925 were announced by D. C. Coleman, vice-president of western lines, among them being:

New coaling plants at Abbey and Wetaskiwin.

Section houses at Lacombe and Sylvan Lake.

At Lethbridge a turntable 90 feet in length will be installed.

The automatic signal system on the mountain subdivision between Field and Revelstoke will be considerably extended.

The normal program of bridge replacement and blasting will be carried on and in addition 225 miles of track will be relaid with 100 lb rail.

Amongst the works already started which will be carried on to completion, is the building of the Chateau Lake Louise and the construction of the ocean pier at Vancouver.

CANADIAN GIRLS HEED PLIGHT OF VILNA BACHELORS

Vilna, Lithuania, March 16.—Vilna bachelors will not need to search England and Ireland for brides. More than one hundred letters have been received up to date by the secretary of the Vilna Citizens' League, from lonely maidens in all sections of Canada and the United States, asking for particulars of the 62 bachelor farmers of this district, and giving all sorts of encouragement to the most bashful of them to step out and propose right away.

The greater part of the inquiries hail from Toronto and other Ontario points. Manitoba and B.C. areas are well represented, while Chicago and New York furnish about a score between them.

The appointment of the overseas convoy was cancelled at the last meeting of the league and a scheme of advertising for Canadian girls adopted in its stead.

FAMILIES FOR ALBERTA

At least two hundred of the three thousand families to be brought out under the British Empire settlement scheme this year will be placed on central and northern Alberta farms, according to information received here. Already farms have been secured for every family in the quota mentioned.

Mr. Mitchell stated that if there was a deficit at the end of the year it was a deficit and would have to be met whether it was added to the general deficit or not.

Mr. Tobin expressed regret that the budget did not balance. He had hoped that the government this year would have been able to make a better showing than they had, inasmuch as there has been an increase in revenue.

KIWANIAN W. J. JAMES SPEAKS ON ST. PATRICK

"Irish" Night at Kiwanis Club Enjoyed by Large Attendance. Three Appropriate Solos Rendered. St. Patrick Responsible for Tremendous Wave of Christianity that Swept Through Country.

The Kiwanis Club held an "Irish" night Tuesday evening, the occasion being the anniversary of St. Patrick's Day. Rev. W. J. James was the speaker for the occasion and he referred to the great Saint and many Irish legends. Appropriate solos were rendered by Messrs. Arwin, Brian, Donald Ross and Fr. Walraven, all of which were enjoyed.

Kiwanian James gave a very interesting address as he referred to the place St. Patrick had in the civilization of the Irish nation.

At this time was the custom for the priests and the people to assemble for a festival at Easter. No fire was to be lighted until the Druid fire was kindled on the hill. St. Patrick and his followers did not know of this custom, and lighted a fire prior to that of the priests, which brought down the wrath of the King and the Druids on their heads. The legend relates a long encounter between St. Patrick and the Druids when the Saint was trapped and killed. He was also offered poisoned wine, but he refused this and turned the cup over when the liquid turned clear and the poison was removed. He then turned the cup over and drank the wine, and was unharmed.

MARKET MOVED LIKE LIGHTNING ON WEDNESDAY

Winnipeg, March 18.—The wheat market this morning showed a complete reversal in sentiment and before the session got fairly under way, prices had recovered 10½ cents of yesterday's severe decline. May wheat at 10 o'clock was quoted at \$1.67 with good demand. Shorts were covering throughout while the strength was principally due to the upturn in Liverpool cables which closed from 7½ to 8 pence higher. All the coarse grains scored substantial gains in sympathy with wheat.

Jumps at Chicago. Chicago, March 18.—Wheat went skyrocketing today, shooting upward ten cents a bushel at the opening of the Chicago market. May wheat touched \$1.63 as compared with \$1.53 to \$1.55½ at yesterday's close. A sharp rise in values at Liverpool preceded the advance here.

GRAIN GRADING WAS DISCUSSED

The present system of grain grading as it applies to the marketing of the western wheat crop was discussed by the agricultural committee of the legislature yesterday morning. The system was both attacked and defended, but no definite action was taken.

It was the contention of some of the members that the present method of grading wheat was not what it should be and that there was a strong demand for a change. The farmers had lost confidence and would not be entirely satisfied until a more reliable system had been adopted. Donald Cameron, farmer member for Ingham, said that there was a great difference in the grades given in the different towns by local graders, and contended that as a result of low grading many farmers had lost considerable profits.

On the other hand Speaker O. L. McPherson, who testified before the committee, said that the method of grading according to milling content of the wheat might give satisfactory results. But this method would not permit the rapid handling of wheat and would probably prove disappointing to farmers themselves, in some respects.

G. H. Van Allen, who represented the government at the grain inquiry at the recent law fall expressed the opinion that the Grain Act should be changed so as to put the vent shipments on the same basis as grain going over the eastern routes.

The Federal terminal elevators, according to Mr. Van Allen should not be put under local authority. He also suggested that the grain board should have offices in the west and proposed that it have the same powers as the Federal railway commission.

The board of grain commissioners would well be made a judicial body, he said.

\$3,000.00 LOSS TO NURSERY AT HAT

Medicine Hat March 17.—Mr. Brooks owner of the Riverside Nurseries at Medicine Hat, was shocked on Monday morning on entering the plant to find everything frozen. Upon investigation he found that a lock had been taken off the garage door leading to the nursery and that his entire winter's work had been destroyed. His stock consisted of tomatoes and flower plants, valued at about \$3,000.

CUTTING TIME ACROSS CANADA

Winnipeg, March 18.—Another new record for transcontinental rail travel will be hung up this year when the Trans-Canada, the Canadian Pacific railway flyer, starts on May 17, as it will cut down its present time of ninety hours from Montreal to Vancouver by two hours.

MEETING OF BANDSMEN

A meeting of bandsmen and all others in the city interested in the re-organization of the Wetaskiwin Citizens' Band will be held in the Elks' Hall on Sunday afternoon next at 3 o'clock. Keep the date in mind and be there!

tion and development of the Irish nation and some of the legends associated with his life. St. Patrick's Day is celebrated in Ireland by processions and celebrations. Although he was an Irish Saint, he was probably born in Scotland, the son of a town councillor, who was a Roman official. As a boy he was carried away as a slave and served seven years, when he escaped and got a ship to France. Autobiographic references are made to visions that he frequently had, calling him back to his native land, and in the year 432 he returned to Ireland. But he was not welcomed and went further north. Later he went to the farm where he was captured and taken into slavery. A legend is that when his former master heard of his return he became frightened and shut himself and his family up in a house and set fire to it, and was thus destroyed.

At this time was the custom for the priests and the people to assemble for a festival at Easter. No fire was to be lighted until the Druid fire was kindled on the hill. St. Patrick and his followers did not know of this custom, and lighted a fire prior to that of the priests, which brought down the wrath of the King and the Druids on their heads. The legend relates a long encounter between St. Patrick and the Druids when the Saint was trapped and killed. He was also offered poisoned wine, but he refused this and turned the cup over when the liquid turned clear and the poison was removed. He then turned the cup over and drank the wine, and was unharmed.

The Shamrock is the emblem of the Irish nationality. As St. Patrick was explaining the Christian mystery and doctrine of the Holy Trinity, he saw a small plant with three leaves and a sprig. This he held up and pointed out that although there were three complete leaves, taken together it made one perfect leaf. As the Shamrock was used by the Pagans before this, it is thought that this is also a legend.

St. Patrick was supposed to have cleared Ireland of all snakes, toads, and silly things. During Lent he charmed the snakes by music and drove them into the sea.

St. Patrick died about 462, having lived a life of great holiness and charity. Christianity firmly planted in Ireland. He changed many of the customs in the life of the people and was largely responsible for the tremendous wave of Christianity that swept through Sweden and England. The Irish are people of tradition and live in past history handed down at the fireside, and in their generation by word of mouth.

STRAITHONA LADIES RETAIN FRENCH CUP

Two girls of Wetaskiwin lady curlers went to Strathcona on Saturday last to play for the H. R. French trophy, but failed in their endeavor by a margin of five points. The first game resulted in a victory of 10-9 for the Wetaskiwin ladies, but in the final count the Strathcona aggregation found themselves ahead with a score of 22-18.

The results were as follows: Mrs. Dore; Mrs. McMurdo (Wetaskiwin) 10.

Mrs. G. A. Campbell 15; Mrs. H. W. Wright (Wetaskiwin) 12.

WOMEN'S INSTITUTE

The Women's Institute will meet in the W.I. rooms, Palace street, on Thursday next, March 26, at 3 p.m. Mrs. V. C. French will give a talk on her trip abroad.

SETTLERS HAVE
ESCAPES FROM
TIMBER WOLVES
Vilna, Alta., March 16.—Several
dances have been postponed and so-
cial engagements involving visits be-
tween sunset and sunrise cancelled
by residents of the new settlement
northwest of Vilna owing to the fact
that timber wolves have invaded the
district and assume a threatening at-
titude on several occasions.

Before this territory was home-
steaded, about three years ago, trappers
and hunters made small fortunes
by the sale of wolf skins; but these
drove the beasts apparently found re-
fuge in the northern forests for a few
years. Only on one occasion last year
did they venture into the cultivated
area when they stalked a trapper for
nine miles from Lac La Biche to
Vilna.

Last week a party of four were
returning from a dance at Hamlin,
and they were pursued by five wolves
who kept within a few feet of the
slight for three miles of a lonely trail
through a tamarac swamp. One of the
occupants had a loaded rifle but was
persuaded not to use it until abso-
lutely necessary. The team, scenting
the wild beasts, galloped at a terri-
ble rate over the frozen trail and the
driver was utterly powerless to
check their speed. Twice when the
horses slowed down in crossing deep
snow drifts the leading wolf made
several attempts to jump into the
sleigh, but received a few hard blows
from the rifle which sent him
reeling backwards on the snow. A
roll on the back of the vehicle was
almost bitten in two by the ferocious
beasts, who fortunately slackened
down and gradually fell behind as the
scared party approached the railroad
crossing where there are large open
spaces and two farm houses.

A few days later the foreman of a
party of the hunters had a narrow es-
cape from a pack of timber wolves,
numbering from nine to twelve, that
attacked him as he was returning to
camp in the evening. This man says
he wishes no more adventures with
wolves during the remainder of his
life. He had barely untied his horse
from a hitching post and was adjust-
ing the saddle when the pack sudde-
ly appeared on the summit of a large
knoll about 60 yards away. They
rushed down the sides and across the
intervening draw at lightning speed
straight for the man and horse.

More by instinct than by reasoning
he says, he climbed a tree at his back
but cannot remember how he perform-
ed the feat so quickly, having had no
practice since his boyhood days. A
part of the pack charged the fright-
ened horse and the others howled about
the base of the tree, while a few of
the wolves chewed the stock of the
rifle which was lying on the snow. The
horse thundered his way to camp
and leaping the rail fence, aroused the
attention of the crew who were get-
ting ready for supper. Surprising that
something of the sort had happened,
the crew loaded up their rifles and
went to the rescue of the foreman.
They shot three wolves and wounded
several, and to the great relief of the
terrified foreman, beat off the remain-
der of the savage train.

ARRIVING TOO EARLY
The sheepmen around Sunnysbrook
are having the time of their lives
lately. Little bands are being born
and must be put in the oven to save
them. With baskets here and there it
makes interesting winter work.—Hans
Herald.

THE PROVIDER
"Dinah," said the mistress, "I hear
you are married."
"Yes; I've got a good man now."
"Does he provide for you all right?"
"Yes, he's a good provider, but I've
sneaked he going to be catched at it."

able. Colors of black and silver. Just
the kind of stocking you want to keep
you comfortable between seasons, as
the weather changes so often. Bar-
gain Price 65c

SENSATIONAL
WHEAT DROP

Winnipeg, Mar. 14.—Suffering the
largest break ever recorded in wheat
in one day on the Winnipeg grain
exchange. May future bit: a "Friday,
the thirteenth," ideologian slide yester-
day, and fell 15c to \$1.72 1/2 at the
low point, and closed the lower at
\$1.71. This represented a total break
of 47 1/2c from the extreme high of
the session's movement of \$2.29 1/2.
The July future closed with a loss of
11c at \$1.78, after having touched the
low mark of \$1.68.

It was the wildest market of the
year, and the bear traders had abso-
lute control of the situation. The
heavy selling was brought about by
weakness in foreign markets, and the
favorable weather conditions in the
United States versus wheat crops.

Course grains followed wheat in
the record breaking slide with rye
leading the way at a loss of 16 cents.

SIX GENERATIONS:
UNIQUE FAMILY

Saskatoon, March 14.—Possibly un-
ique on the American continent, Sas-
katoon can boast of a family of
six generations.

Mrs. Odell of Hanley, has a great
great granddaughter. Mrs. Od-
ell was married at the age of 16 years
and the issue from each generation
has started with a daughter, and each
has married between the ages of 16
and 18.

The eldest daughter of Mrs. Odell
is 76 years old. The great great great
grandchild is six months old and lives
in the United States.
Mrs. Odell still reads and sews
without the aid of glasses. She claims
that her every faculty is as unimpaired
as those of a young girl. Mrs. Odell
has had ten children, six of whom are
living. There are 33 grand children;
45 great grandchildren; seven great
great grandchildren and one great
five generations of the family living
in Saskatchewan.

GETS NEW TRIAL

Edmonton, March 16.—Dr. J. A. His-
lop, sentenced to three years' impris-
onment on a charge of manslaughter,
has been granted a new trial, accord-
ing to an announcement made in the
appeal court this morning.

MYSTERY DISEASE
NOT KNOWN HERE
BY PHYSICIANS

No cases of the mysterious and
unidentified disease which has caused
the death of 201 persons in Chicago
in nine days, have yet appeared in
Wetaskiwin. Little is known of the
strange malady which is baffling the
Chicago physicians and chemists and
taking such a high toll of life.

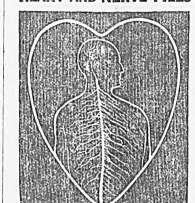

According to the dispatches from
Chicago, the disease, unless taken in
its early stages, develops into influ-
enza and pneumonia and is highly
fatal. In Chicago, 27 persons died
from influenza and pneumonia in the
space of 24 hours, most of these
deaths being traced to the mysterious
infection. Whole families have been
stricken.

The disease is understood to be pre-
valent in other centres of population,
according to reports. It is character-
ized by aching pains, burning sensa-
tions in the eyes, prostration, high
temperature and nose bleeding.

\$20,000 BLAZE

Saskatoon, Alta., March 16.—Fire
caused more than \$20,000 damage ear-
ly Sunday morning when the Trochu
Trading Store, MacCullough's hard-
ware store and Garry Provins' pool-
room were burned.

MILBURN'S
HEART AND NERVE PILLS

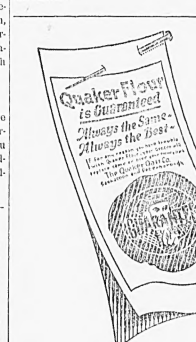

Are a specific for all diseases and
disorders arising from a run-down con-
dition of the heart or nerve system.
They treat such troubles as Palpita-
tion of the Heart, Shortness of Breath,
Smothering and Sinking Spells, Faint
and Dizzy Spells, Nervousness, Sleep-
lessness, and are especially indicated
for all troubles peculiar to the female
sex.

For sale by all druggists and dealers.

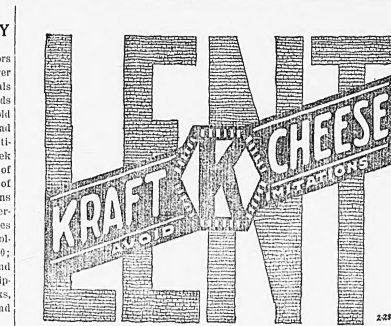

A MEAL TIME
AT WEMBLEY

Arrangements for feeding visitors
to Wembley will be made on a larger
scale this year. Two million meals
each week were served on the grounds
last year, but there were no cold
storage facilities, and everything had
to be brought in fresh. The quanti-
ties of food consumed in one week
ran to totals like these: 75 tons of
meat, 260 tons of bread, 40 tons of
potatoes, five tons of tea, 300,000 tins
of sardines, 500,000 bottles of miner-
als, 2,000,000 small cakes. Breakages
in dishes were enormous, as the fol-
lowing figures show: cups 1,573,000;
saucers 410,000; teapots, 350,000, and
glasses 1,450,000. A colossal equip-
ment with 1,500,000 knives and forks,
30,000 chairs and 250,000 napkins and
tablecloths.

THURSDAY, MARCH 19, 1925

Seventeenth
of Ireland.

There are several dates which are celebrated throughout the English-speaking world. None of these are more popular than the 17th of March which is the anniversary of the death of St. Patrick, the patron saint of Ireland. Something unusual is generally expected in Ireland and therefore her patron saint was a Scotchman.

Like St. George, St. Andrew, St. David, St. Denis and other patron saints, very little is definitely known about St. Patrick. He was born about A.D. 387 and came to County Antrim when about 16 years of age, and by the way County Antrim has been noted for its production of saints ever since. After spending about seven years in the neighborhood of Slensish mountain, St. Patrick returned to Britain and also spent some time in Gaul. About A.D. 432 he came back to Ireland where he remained until his death in 465.

Previous to the arrival of St. Patrick, Ireland was paganistic and many old customs still survive from those times. For instance the superstition about fairies, haunted ruins, lucky days, etc., are survivals from them.

St. Patrick labored with great devotion and at his death practically all the inhabitants had embraced Christianity.

Of course, like other patron saints innumerable legends have grown up around the name of St. Patrick. However, most people nowadays celebrate St. Patrick's Day, not only in honor of a great saint, but also as a reminder of their residence in the Green Isle, their native land. Irish people never forget the land of their birth and their "hearts leap back to Erin's Isle" every 17th of March.

With all its troubles, Ireland has been noted for witty people and in fact not a few cases for reckless gaiety, such as Lever depicted in "The Man for Galway."

"To drink a toast, the proctor roars,
Or banish as the case may be
To kiss your wife or take your life,
At ten or fifteen paces."

To keep game cooies, to hunt the fox
And drink in punch the Solway,
With debts galore but fun far more
Oh, that's the man for Galway."

LIVING ON SEEDS

You sit down to your breakfast and begin with porridge—the oatmeal is crushed oat seed. You go on with toast which is made from the seed of wheat, and with these foods you drink coffee, which is a decoction of the crushed and roasted seed of the coffee shrub.

Has it ever occurred to you to consider the extent to which seeds enter into the diet of the whole human race. All our bread is made from seeds, either of wheat, barley, rye or maize. Eastern races, who do not eat bread as much as we do, live largely on the seed of the rice plant, boiled instead of baked. We ourselves eat enormous quantities of rice, both as a vegetable and as a pudding.

Among our most prized vegetables are green peas and broad beans, both the green seeds of cultivated plants, while dried peas and lentils are used for soup and as winter vegetables.

Cocoa is also made from a seed, and our condiments, with the exception of salt, nearly all come from seeds. Mustard, pepper and nutmeg are well known examples.

Nuts form a considerable proportion of the food of the human race. We eat walnuts, chestnuts, Brazil nuts and hazel nuts, which are all seeds of different trees.

But by far the most important of nuts is that of the coco-palm, from which is made margarine and oil, and hundreds of tons of which are used in the manufacture of cakes and sweets.

When there were shipments of 17,000 head of horses made from Alberta to eastern Canada during 1924, and prospects of a larger number being taken during the present year, the little better shape than most people imagined. This was the conclusion reached at the annual meeting of the Alberta Provincial Horse Breeders' association, which was held at Edmonton last week.

ON PARLIAMENT HILL

The following article, giving a report of the business transacted at the Federal House during the last half of February, has been submitted by D. W. Warner, the member for Strathcona constituency.

Ottawa, March 5th, 1925

Taking it for granted that most of my account of the proceedings of Parliament should be confined to what has happened since Mr. Cooté gave his address, and the present time, I am giving my comments with that in view, trying to fill the gap between his and the following member. Senate reform is considered a real issue by the Independent Labor and Farmer members as well as the more liberal minded of the old party members. It depends largely on Ontario and Quebec owing to their heavier population, but does not look impossible when we consider that it is only a matter of legislation alone, in which we have to have the approval of the senate and the request to have our constitution amended by the British parliament is not a legislative enactment on our part. Apparently all that the senate can do in this case is to appeal to the British legislators against the wishes of the Canadian people; provided a conference in which all the provinces are represented decide that they wish the constitution amended and petition the mother parliament through their representatives in the Canadian parliament to so amend it. It is then up to the British parliament as to whether they will please the Canadian people or the Canadian senators, if the senate opposes the measure. The end in view is to leave the B.N.A. Act in such a form that changes can be made by ourselves as we desire hereafter.

The ministers while admitting the necessity of economy in the maintenance of the Dominion government, also complain of their inability to cut down expenditures on account of so much of it being uncontrollable. However the Farmer members are still stressing their demands that expenditure be cut where it can be done without seriously impairing the efficiency of the government.

The Crown's Agreement is only partially saved by the courts. Parliament will now have a chance to re-establish it in full by bringing the rest of the rates down to the old level of what they were before the suspension of that famous agreement. It is to be hoped we will not sustain any more such surprises as that which we experienced when suspension was allowed to lapse during the last session. Namely, the tactics used by the rail operators by not allowing it to apply on all lines as it used to do.

When the estimates of the minister of agriculture were under discussion the grading of butter and cheese for home consumption as well as for export was well gone into. It levelled out that they were before the suspension of that famous agreement. It is to be hoped we will not sustain any more such surprises as that which we experienced when suspension was allowed to lapse during the last session.

Mr. Shaw's divorce bill brought on a very contentious debate. Some of the members holding that it would encourage and increase the number of divorces in the four western provinces, the only part of Canada to which it applies. Others pointed out very clearly that the only effect the bill could possibly have was to place the sexes on an equal position as far as grounds for divorce were concerned.

Mr. Irvine's resolution calling for changes in the rules of the House in order to bring them more nearly in line with present needs was headed off by an amendment offered by the prime minister asking that the subject be referred to a committee in conjunction with the speaker to work out the needed changes and report to the House. Parliament has now four factions as well as several independent members and the rules as they now stand were formulated for two parties only.

The idea of housing a binder twine factory in Manitoba precipitated an interesting discussion centering round the principle rather than the amount of the grant. However, the fact as to whether the industry could be successfully established and supported in connection with common farming as carried on in that province with or without a bonus was not determined. While it was considered a desirable undertaking there was a doubt expressed as to whether it could be made a successful enterprise.

In the discussion of the estimates of the minister of trade and commerce the unsatisfactory method in use at present to determine the selling value of our wheat, the superficial examination to decide the grade it should go instead of a scientific milling test which could establish the real value in a satisfactory manner, was pretty thoroughly aired. This should be of

use when the Grain Act is being overhauled. It was pointed out that grain going west, through Edmonton in particular, did not receive as high a grade as when going to Winnipeg. The minister admitted that he had had complaints in regard to this matter which he had investigated with the result that the grain board and graders had denied the charge, but it will take more than their denial to make the western shipper believe he is getting a square deal.

The Rural Credits proposition has not yet been discussed in the House. But there is apparently enough information available now through Dr. Tully's investigations and from other sources to justify going ahead with the scheme at this session. The farmer members are anxious to obtain some workable system of rural credits and will have no stone thrown to push it along.

The discussion on Mr. Gooch's resolution asking for the prohibition of race track gambling lasted through the day on Monday until well after midnight. After the main motion had been carried and considerable attention, an amendment was offered and carried, causing the Speaker's rule to be challenged. Later an amendment to the amendment followed and was lost. Then before the main motion was put as amended, another amendment was offered which the mover tried to withdraw, but was not permitted to by the speaker, and the House, so it was put and lost. The House having divided four times including the vote on the Speaker's ruling, in which he was sustained, the motion as amended was put and carried without division.

Intense confusion existed until the matter was disposed of, the complication beginning at the time the first amendment was offered, leaving the request for a very different form of legislation to that for which the original motion was approved. A treaty between Canada and the U.S. was approved. It was designed to prevent smuggling both ways across the border and prevent lawbreakers crossing the line either way to escape justice. It is designed to make extradition easier also. Mr. Bureau says he thinks it is beyond human ingenuity to altogether prevent smuggling, that all he expects the treaty to do is to reduce it to a minimum. He was asked to give us free trade. The request raised a laugh but the minister could not surrender so much revenue at the present time although he thought it quite human to long for free trade.

There was a very interesting discussion regarding ocean freight rates March 3. The move was apparently approved and justified by practically the whole house. There was a doubt in the minds of some as to whether the subsidy offered by the government and the free ships it could control could accomplish the reduction even of four whole merchant marine worked with the subsidized boats. The reason being the small amount of freight which could be handled. However, it was not finished and is likely to go to a select committee to be put into shape for the house to finally pass on it. The farmer members have not had anything to say on it yet, but are without doubt friendly to any reasonable practical scheme to reduce rates and will not try to make political capital out of the subject when it comes back to the house in shape to be dealt with.

Mr. Woodworth's resolution asking that the issue of currency and the control of credit be taken out of the hands of private corporations was debated March 4. Though well championed by several Labor and Farmer members, and objected to just as energetically by others, there was no conclusion reached because six o'clock cut off the debate and no night session, it being Wednesday. It is now uncertain when the question will come up again.

One outstanding feature of this session

SKIN DISEASES
Eczema, Salt Rheum
RELIEVED BY USING

BLOOD
BITTERS

Mrs. B. Arneson, Dells Co., N.S., writes: "Having been troubled with eczema on my hands, for over five years, and trying everything I could think of, including doctors, but without any relief, a friend advised me to take B.B.B."

After having used two bottles of your wonderful medicine I was relieved of my trouble. This is now a year ago, and I have not had the slightest sign of it since."

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

SUCCESS

tion is that there has been better progress made than usual. Everyone seems to be anxious to get on with the work, but the main reason for the uncommon advance is that only one third the time was spent in discussing the matter contained in the speech from the throne.

It is just as well because every item in it will get its share of attention when it comes before the house in the regular way.

Madam—When you go out to purchase goods go to the merchant who advertises in your weekly paper. The merchant who does not advertise in this day and age of the world is a back number and the storekeeper who does not know how to sell his goods is not likely to know how to buy to your advantage, therefore the price you pay may not be as low as it can and should be to you, if he did know how to buy. Patronize the merchant who is up-to-the-minute.

For Many Years

We have hammered away at delinquent subscribers in an honest endeavor to bring our lists somewhere nearly up-to-date, with more or less success.

There was a time when one simple reminder was enough to bring delinquents into the office on the run, and we are hoping that those days are not entirely passed away. At any rate we are taking it for granted that all that is necessary in most cases is for us to simply remind you that we wish you to call or remit an amount sufficient to bring your paper up to the current year.

Let this be your reminder.

Make It Read '5'

Just take a look at the label on the front page of this issue and see if it reads "25." If you are behind even a year, let's get things adjusted and start all over afresh in this year 1925, which we are assured will be a big year in every way. From every part of the continent comes the prediction that we are to see "good times" before the end of 1925. One way to make good times come to this office is for our subscribers to pay up their arrears. Follow the golden rule in this matter, and better times will assuredly come your way in the natural course of events.

The Wetaskiwin Times

Producers of Printing of the Better Quality

THE FARMER IN WINTER

The farmer has leisure in winter they say;
Can lie late in bed, eat his dinner and play.
From its rise in the morn, till the set
Of the sun,
Has nothing to do, when his chores
are all done!
This saying I'll point with a question
mark?
Seems to me he's at work before
dawn, until dark;
And long after dark, as the matter
may be—
By the glimmering light of a lantern
to see.
To milk all our cows! Why man
alive!

My brother and I must be rising at
five!
With cattle and horses, and pigs to
be fed—
At six we aren't thinking of lying in
bed!
Working a farm on the instalment
plan.
We're not leave dirty a pail or a
pan.
The milk must be strained and the
cream must be shipped—
If then there's any leisure, the cows
can be clipped;
The stables be whitewashed; the
windows made sure;
See gates, locks and hinges and doors
are secure.
There's a harness to mend, and a
trace chain to fix.
We'll have to step lively from three
until six!

When these jobs are all finished and
all is made snug.
You won't find us trying, the warm
stove to hug!
The wood-still is calling: Come out and
cut wood!
Provide for this winter, and next one.
—you should!

When March suns are glowing, and
saps on the run,
I think you'll agree, there is much
to be done!—
To fill up the ice house, pray do not
forget.
Or when summertime comes, you'll be
sorry, you bet!

Don't think I'm a groucher! For no!
That's not so!
Good work brings reward in content-
ment, you know;
And to see a clean barnyard, and ev-
erything neat.
Believe me—may bring me, a pleasure
complete!

Phone, mail, or hand in your news
items to The Times Office, Phone 27.

A man named McMillan, whose
farm is southeast of Ponoka, was
brought before the magistrate at La-
combe on Monday, charged with cruelty
to animals. On a complaint being
made by neighbors, Constable Collett
visited the McMillan place a day or
two ago, and found that four of the
man's horses had been left out to
rustle for the past several weeks, with-
out any feed being provided. Two of
the animals were dead, and the other
two were in a terrible state of starva-
tion. It was proved that McMillan
had plenty of feed, but neglected to
provide for the animals because it
was bad weather for hauling. He was
given a severe lecture and fined.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

FOOTBALL AND THE FUTURE

Dear Sir—It has not been many years since Wetaskiwin had a good all around football team, and what is to stop it from having one now. There is a vast area to choose from, and I think there is no obvious reason why some of the old enthusiasts should not come forward and organize the club again.

Wetaskiwin is a city of renown and is situated where it can easily be reached by teams from Ponoka, Lacombe, Red Deer and Wood River, all of which possess good football teams, and did last year constitute the Central Alberta League.

I might say that football in Canada is not going to be a subsidiary sport, but one of the leading sports in the near future, for this year is seeing new clubs formed in every district, town and city, and I must say there is no reason why Wetaskiwin should not have one of the best teams in central Alberta.

There are good sportsmen in the city, and I ask this year is seeing new clubs formed in every district, town and city, and I must say there is no reason why Wetaskiwin should not have one of the best teams in central Alberta. I might say that the four above mentioned clubs have been reorganized and will constitute the Central Alberta League again this year, and it is their wish to include Wetaskiwin

Plan Settlement of 180 Families in One Block of Land North of Vermilion

Plans for the settlement of 180 families of British stock in one block of land, north of Vermilion, have been completed by the Scottish Immigrant Aid Society, it is announced by the Edmonton representative, D. E. Coor, who has just returned from a trip to Winnipeg. The society has made the purchase from a Belgian corporation of 30,000 acres of land which is located in one block and will be tapped by the proposed extension of the Cut Knife-Whitford lake branch of the Canadian Pacific railway on its way to the Edmonton terminus.

Settlement on the land will begin this spring and work in preparation for the newcomers will start as soon as the snow leaves. It is the intention to give each settler a full line of stock and farm equipment as well as if possible.

There is a shield to be competed for in this league, and a cup at Red Deer on the 1st of July, and a competition at the Ponoka fair, and I must say that these trophies cause great interest among the central Alberta football enthusiasts.

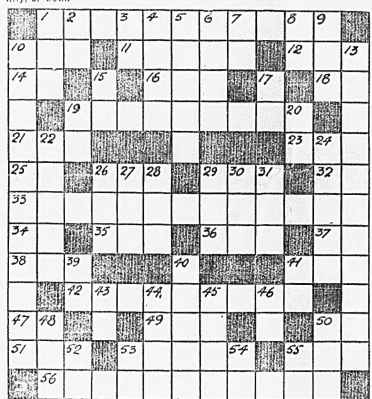

I am quite ready to give any help that will be of any use to form a club in the city if any enthusiast will come forward and get busy.

I am, yours, in anticipation,
Ralph Haynes,
Gen. Secretary, Provincial Hospital Athletic Association, Ponoka.

Cross-Word Puzzle No. 4

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically, or both.

KEY TO CROSS-WORD PUZZLE

- | | |
|------------------------------------|--|
| Horizontal | Vertical |
| 1 A visual defect. | 34 Time east of Ft. William (ab.) |
| 10 Before. | 35 Boy's name (ab.) |
| 11 Street (Spanish). | 36 And so on. (ab.) |
| 12 Girl's name. | 37 Name of continent (ab.) |
| 13 Unit of Measure (ab.) | 38 Oriental monetary unit. |
| 14 Railway Office (ab.) | 41 A woe. |
| 15 Man's name (ab.) | 42 To figure. |
| 19 Pearly white. | 43 To open (poetic) |
| 21 Cuckleberry. | 49 Military decoration (backwards) (ab.) |
| 23 Valuable rock. | 51 Discrete. |
| 25 Railroad (ab.) | 52 Fall of pep. |
| 26 Deverage. | 53 Charge. |
| 29 Anger. | 56 Constituents. |
| 32 Hour (ab.) | |
| 33 Repeated introduction of serum. | |

PARKER'S

THE MEATS OFFERED HERE

are all of choice grade. You will know the difference with your first taste of them. They come from prime young cattle and live stock and have a far finer flavor than ordinary meats. But much finer as they are, they are no more expensive. You'll find our prices as low as any.

For the Lenten Season, we have a fine selection of Fresh, Cured and Canned Fish, Fresh Salmon, Halibut and Codfish; Smoked Salmon, Kippers, Haddie and Fillets, Salt Herrings, Canned Salmon, Sardines, Lobster, Crab, etc.

CARBOLA

THE
DISINFECTING WHITE PAINT

CARBOLA is a white paint and powerful disinfectant combined in powder form. It paints and disinfects in one operation and can be applied with brush or spray pump to wood, brick, stone, cement, plaster board, etc., and over ordinary whitewash.

You just mix the CARBOLA with cold water in a pail and it is ready in a minute or two to apply, no waiting or straining. It will not blister, flake or peel off and does not spoil by standing after it has been mixed with water.

It is death to disease germs, lice and mites.
Makes buildings clean, sweet-smelling and sanitary.

Recommended for use in Public Houses, Stables, Cellars, Hog pens, Creameries, Factories, Granaries, etc.

TOWN TOPICS

W. Prest, manager of the Bank of Montreal, left Wednesday morning for Drumheller on business.

H. B. Stewart returned Tuesday evening after spending a month with relatives and friends in Manitoba.

Mayor Montgomery was at Edmonton Monday on business connected with the city.

Gothard Johnson, who came up from Kelowna to attend his father's funeral, expects to return home the end of the week.

The markets made a record slump during the past few days, wheat falling off 37c and oats 27c during the week from March 11 to 18.

The W.M.S. of Knox church will hold a tea and food sale in the Sunday school rooms on Saturday, April 25th, from 3 to 6.

The Mission Friends Ladies' Aid will meet with Mrs. Swanson at the Court House on Friday, March 27, at three o'clock. All are invited.

Miss Alice Lakeland, who has been visiting her sister, Mrs. Olson, for the last couple of months, left for her home at Provost, on Saturday.

A shadow social and dance will be held in the Buleys school on Friday evening, March 20. The music will be furnished by Dergen's orchestra.

The Peace Hill Chapter, I.O.D.E., will hold a "Violet Tea" and food sale, in the Elks' home, on Saturday, April 11.

The Willing Workers of Knox Presbyterian church will hold their first quarterly tea and food sale in the Sunday school rooms on Saturday, March 28th, from 3 to 6 p.m.

Johnson & Johnson made another large shipment of bays on Friday last, when they sent thirteen carloads to the eastern market. Seven of the cars were double deckers.

The Willing Workers of Knox Presbyterian church will hold their first Quarterly Tea and Food Sale in the Sunday school rooms on Saturday, March 28, from 3 to 6 p.m.

A deputation from the Yeoford district passed through town Wednesday on their way to Edmonton to take up the matter of the proposed railway with the government.

R. S. Murray was called to Calgary on Friday afternoon last, owing to the illness of his sister Marjorie, who had been taken ill with a serious meningitis.

The Allen Family gave one of their renowned concerts in Knox church on Thursday evening last. The building was packed with a most appreciative audience, and the entertainment was greatly enjoyed. The concert was given under the auspices of the choir.

H. W. Reeves held a very successful sale on Tuesday. He leaves with his family in a few days for Oklahoma, where they expect to make their future home. Mr. Reeves is not returning to the south as a matter of choice, and will be a good booster for central Alberta wherever he locates.

WEDDINGS

ANDERSON — BLIZE

A quiet but pretty wedding was solemnized at the Bethel Pentecostal Mission, Edmonton, on Thursday, March 12th, at 8:15 p.m., when Mary Ethel, daughter of Mr. and Mrs. Blize, of Millet, and Anton O. Anderson, also of Millet, were united in marriage by the Rev. Hugh J. McAlister. Miss Jean Campbell, of Edmonton, played the wedding march.

The bride looked very pretty attired in brown silk and wearing a picture hat of brown and sand, trimmed with flowers of soft shades. She carried pink carnations and fern. The bridesmaid, Miss Edith Owen, of Wetaskiwin, wore navy blue silk crepe with hat to match. She also carried pink carnations and fern. The bridegroom was attended by Edgar Taylor of Edmonton.

After spending a short honeymoon in Edmonton, Mr. and Mrs. Anderson will return to the Millet district where the bridegroom is engaged in farming.

The daughter of John Woods, who has been in the Red Cross hospital at Calgary for several months receiving treatment to her limbs, returned home Monday. She is much improved as a result of the treatment.

C. H. Russell received the sad news on Friday that his mother had passed away suddenly at the family residence at Exeter, Ont. On account of professional business he was unable to leave to attend the funeral.

A meeting will be held in the Angus Theatre on Sunday afternoon, March 22, at 2 p.m., to be addressed by Geo. A. Ware, bible student of Edmonton, the subject being "God's Kingdom has Come." "Millions Now Living Shall Never Die." No collection. Seats free.

If the weather and ice permits five links representing the Kiwanis Club will endeavor to uphold the honors of that organization when they meet the crack curlers from the Elks' lodge in the city, in a contest to take place after the luncheon on Tuesday evening next.

F. T. Kirstein

Burglars entered the store of A. M. Campbell, some time on Friday night last, and got away with some merchandise. The amount of goods taken, cannot be ascertained, but it is known that men's clothing was among the articles made off with. The thieves gained entrance through a second story window, breaking a pane of glass when attempts to cut the sash failed.—Lacombe Globe.
